**Good Camera Ready Copy =
Good Printing**

Send a sharp copy with black ink on white paper or light color paper. Don't use light colored inks. Photos and light color backgrounds using a very small dot pattern will not reproduce well and are printed at customer's risk. Leave at least a 3/8" margin on all four sides of your circular. For best results, image area of your postcard should not exceed 3 1/2" x 4 1/4". Mail your camera ready copy flat and protected in a large envelope. Avoid folding your camera ready copy. Do not use staples. Try not to use tape or paper clips on your camera ready copy. Send your copies loose and use the description area of the order form to specify the front & back of your circular by mentioning the headline or first few words of the ad copy.
